

Ohio Chapter of the American Fisheries Society Annual Meeting Schedule at a Glance

Polaris Quest Conference Center, Westerville, OH

Thursday, January 26–Friday, January 27, 2023

Thursday, January 26, 2023

9:00-10:00: Check-in, poster set-up, load talks

10:00-10:45: Welcome and Plenary

10:45-11:00: Break

11:00-12:00: Oral Presentations (3)

12:00-1:00: Lunch (provided)

1:00-2:00: Oral Presentations (3)

2:00-2:20: Break

2:20-3:00: Oral Presentations (2)

3:00-4:00: Poster Show

4:00-5:00: OCAFS Business Meeting

6:00: Social Event

Friday, January 27, 2023

8:00-8:40: Coffee and Posters

8:40-9:40: Oral Presentations (3)

9:40-10:00: Break

10:00-11:00: Oral Presentations (3)

11:00-12:00: Poster break down and lunch (on your own)

12:00-2:30: Fish Identification Workshop

Ohio Chapter of the American Fisheries Society Annual Meeting: Schedule of Oral Presentations

Thursday, January 26, 2023

Time	Title	Presenting Author
10:00	Plenary: Recovery of Stream Fishes and Other Critters, Thank You Clean Water Act	John Navarro
Break		
11:00	Establishing baseline data pre-dam removal: Space use and movement behavior of four freshwater fish species near a large dam	Matthew Acre
11:20	Using fish translocation as a biological restoration technique in Plum Creek, Rocky River watershed	Justin Telep
11:40	Black bass population abundance and growth in Ohio streams and rivers	Taylor Hunkins
Lunch		
1:00	Protecting Ohio's native Ohio Brook Trout through stream restoration	Paul Pira & Julie Bingham
1:20	Assessment of large woody debris installations as a low-cost method of fish habitat restoration in urban streams	Peter Grap
1:40	Electrofishing Grass Carp spawning grounds in the Sandusky River is associated with lower egg captures	Ryan Brown
Break		
2:20	Evaluation of angler catch-and-release, recycling, and associated survival probabilities of Muskellunge within two stocked reservoirs in Ohio using mark-recapture techniques	Kevin Page
2:40	Psychological and social well-being of bony fishes in zoos and aquariums	Ron Oldfield

Friday, January 27, 2023

Time	Title	Presenting Author
8:40	Understanding sport fish survey catchability to improve data quality and interpretation	Stephen Tyszko
9:00	Surfacing response thresholds of Blue Catfish exposed to low-frequency electrofishing	Graham Montague
9:20	Application of side scan sonar for fish habitat mapping	Michael Booth
Break		
10:00	Preliminary evaluation of removal protocols for invasive Grass Carp in the Lake Erie basin	Robert Mapes
10:20	Estimating Walleye and saugeye gill-net encounter probability in a reservoir with simple morphometry	Bryan Kinter
10:40	Enhancing large-scale triploid saugeye production efficacy	Bryan Blawut

OCAFS Annual Meeting Poster Presentations

Thursday, January 26 3:00–4:00

Title	Presenting Author
The acute effects of hypoxia and temperature on Smallmouth Bass and Round Goby predator-prey interactions	Noel Schmitz
River connectivity increases the diversity of fish communities in gravel pit lakes	Audrey Laiveling
Age and size structure of Largemouth Bass and Crappie in a small urban impoundment	Michael Booth
Grass Carp capture methods target depths occupied	Evelyn Pantelopoulos
Predicting sex of Grass Carp from pectoral fin classification in Lake Erie	Dillon Weik
